

EMMANUEL CHRISTIAN COLLEGE

REF:REPORT ABOUT IN-SERVICE TRAINING IN ECC.

In 2008 I joined teaching as untrained teacher. In May 2012, I got to know more about the in-service training in ECTC. ECTC stands for Emmanuel Christian Training College. Emmanuel Christian College is a Christian based organization which is a denominational organization with the vision "A people in South Sudan Rooted In The Word. Glorifying God."

Emmanuel Christian Training College (ECTC) was opened in 2001 and it has been offering three years courses in Christian Leadership and management, Diploma in Timothy Training Institute (TTI) and Teachers' Training. ECTC has collaborated with some Universities like Mount Meru University in Tanzania and St. Paul University in Kenya. Emmanuel Christian Training College (ECTC) was registered by the Minister of Education Science and Technology (MoEST) Juba in the early 2003. Emmanuel Christian Training College (ECTC) was changed to be Emmanuel Christian College (ECC) in May 2012 by the Minister Of Education Science And Technology (MoEST) Central State Juba. ECC has qualified lecturers from Tanzania. ECC has graduated so many students who are now working in different states all over South Sudan.

Emmanuel Christian College opened an opportunity for all teachers in South Sudan who are teaching but in need of training. In May 2012 an 18 months In-Service training course has been opened. This training helps teachers who are teaching but in need of training to acquire better teaching skills for handling their learners in the class. It also helps teachers to acquire new teaching methods, bring good moral pupils. It offers chance to all teachers who are married and not married. The course also helps teachers to teach their learners in good ways. I urge my fellow teachers in all the parts of South Sudan to join the training in order to bring better students and better citizens who can bring development to our growing nation South Sudan.

Through the In Service training I am able to use new teaching and communication skills. I am able to implement effective classroom management, use of visual learning materials, use of cooperative learning methods and I am teaching learners to be creative. I am also able to know the child development stages and to identify the learning styles of my learners. I know the meaningful activities and I am able to show them in my lesson presentation.

In this report I advise my fellow teachers to join the training, because the training changes teaching approach.

I the true things that I actually experienced and seen, in contrast to what people might imagine am therefore, urging all untrained teachers from all the educational departments in south Sudan to send their staffs for the training because most teachers are not trained. I want to extend my special thanks to the management of Emmanuel Christian Unviserty may the almighty God bless you.

NB: The school is located at 20 Miles (Goli) Yei Maridi Road come and gets the chance before you will be late.
