

March 2013

Easter greetings from a sunny South-Sudan!

Hopefully this joyful messages and pictures will enable you to rejoice with us in this easter weekend!

In March I had an inspiring time in the school of Youth With A Mission in Yei-

Almost all teachers in the school are untrained and are now part of the In-Service program. The team had a meeting about the vision of the school for their first time. According to the director of the school, it has encouraged and activated the teachers.

Pray with us for the school! Especially the lower-primary section is in need of support.

The second year diploma students went for teaching practicals this month!

In a period of three weeks we have seen students growing in their teaching skills. We went almost every day to the Primary schools to observe the lessons of the students. After every

lesson we gave feedback and individual guidance.

We were surprised by some students who are having a natural talent for teaching!

Our third year student Betty gave birth to Benita!

Betty is a very strong woman. She did not miss any course of her studies, despite her pregnancy and delivery. Thank God for her husband who is helping her in taking care of the baby, this gives Betty a chance to complete her studies.
