*Assist South Sudan In Strengthening Teachers in Christ* March 2015

## Children run to school full of joy!

Five of our graduated students are teaching in the primary school of the orphanage 'Hope for Sudan' in Torit (Eastern side of South Sudan) where the children are happy in the school!

The brand new teachers have built a good relationship with the children. The classrooms are well arranged and the teachers are using a variety of teaching methods.

This month we have sent a group of 6 students to this school in Torit to do their teaching practice. Our graduated students shall give guidance to them during their internship.

During my visit I felt so blessed to see with my own eyes what our graduated students are doing in their new working places.

We see the potential for the school to become a role-model school for our training. Neighbouring school already observed the impact of the work of our teachers and has asked us to start an inservice certificate training during the holidays for their teachers as well. It is our prayer to start this program at the end of this year.

On the picture on the left, you can see that our graduated students also function as preachers during a church-service with children from the orphanage

### Praises!

**\*Thank God for the teachers and school in Torit!**

### Prayer..

**\* Pray with us that all our students may have a personal relationship with Jesus in their daily life.**

**\* Pray for our vision to train teachers in Torit.**

**\* Pray for sufficient financial support, not only for the ministry, but also to cover my personal costs.**

In February we held a workshop for our new colleagues about observation of our students during their teaching practice and how to give encouraging feedback to them after their lesson-presentations.

In Torit I had a very special meeting with a group of women who had just finished a traditional funeral dance.
